

GETTING STARTED WITH CLEAR ALIGNERS IS EASY...

Our dentists work with you to create a customized treatment plan.

Photos are taken at your initial appointment.

Next, your dentist and the Digital Lab work together to provide a comprehensive and customized treatment program.

Finally, you will receive your customized Clear Aligners and Patient Kit. Your journey to a better smile has officially begun!

The Perfect Patient Experience

WHY CHOOSE US?

- We partner with companies backed by over 100 years of innovation in dental and orthodontic care
- Designed by dental professionals using cutting-edge technology
- Trusted by thousands of providers worldwide
- Excellent for both simple and complex alignment cases
- Manufactured with high-quality materials for comfort and durability

IT'S ALL ABOUT COMFORT

Clear Aligners are a series of custom-made, removable trays that gradually move your teeth into alignment. Designed for comfort and discretion, they offer a trusted alternative to traditional metal braces.

Why patients love them:

- Nearly invisible
- No brackets or wires
- Removable for eating, brushing, and special occasions
- Smooth, comfortable fit
- Fewer office visits than braces
